

Nature Inspired **Window Paintings**

By Samantha Jayne Peberdy

Why?

Why Get a Hand-Painted Window Display?

1. Grab Attention

A beautiful, eye-catching display makes people stop and look – perfect for drawing in foot traffic. A well-decorated window makes your business look open, welcoming, and full of personality – helping you make a strong first impression.

2. Stand Out from the Crowd

In a world of printed signs and digital ads, a hand-painted window offers something unique, personal, and memorable.

3. Seasonal and Themed Displays

Celebrate the seasons, holidays, or special events with tailored artwork that keeps your shopfront fresh and exciting.

4. Create a Photo Opportunity

Customers love sharing beautiful things. A painted window gives them a reason to snap a photo and tag your business online.

5. Support Local Artists

By working with a local artist (that's me!), you're investing in your community and adding a personal touch to your space.

6. Easy to Remove, Fun to Change

Unlike permanent signage, window art can be changed as often as you'd like – keeping things playful and relevant.

7. Cost-Effective Marketing

A single painting can attract attention for weeks – no monthly subscription required!

PRICES

Artist statement

Hi, I'm Samantha Jayne, a Leicester-based artist passionate about bringing creativity to everyday spaces. In a world where we can order anything to our doorstep, people are craving something more personal, more human. I believe a touch of love and care on our high streets can make a real difference and art can help make that happen.

Through hand-painted windows and nature-inspired designs, I aim to brighten up local shops and spaces, helping them feel vibrant, inviting, and alive. Art has the power to connect people to their environment, spark curiosity, and draw communities together.

Based in Leicester, I create custom window art across the East Midlands - transforming windows into moments of joy.
